

ECO-LOCK

VEHICLE SECURED

IDLE REDUCTION SYSTEM

OVERVIEW

- Turns off and on engine when specific conditions are met
- Configurable to custom conditions
- Works while key is removed from ignition yet locks everything up for safety
- Optional thermostat to keep drivers and passengers comfortable

PLUG AND PLAY EASY TO INSTALL

AVAILABLE ON FORD INTERCEPTOR
AND CHEVY TAHOE

WHY ECO-LOCK

FUEL SAVINGS

Pays for itself in a short period of time.

EFFICIENT

It's more efficient to turn a warm engine off and on, than to idle for more than 5 seconds.

AUTOMATIC

Conserve fuel without drivers thinking about it.

ECO-FRIENDLY

Reduces CO2 emissions.
